

COMMERCIAL CAPABILITY STATEMENT

Electrical Subcontractor · Metro Atlanta

Georgia-licensed electrical contractor for retail and restaurant tenant fit-outs, national-account rollouts and commercial service work across west and north Metro Atlanta. Owner-operated: the person who prices your job runs it in the field. Every bid starts with a full read of the notes on every sheet, written RFIs and real supplier quotes, so general contractors get a clean, complete scope.

CORE CAPABILITIES

- Retail fit-outs and remodels: relamps and LED strips, checkout and power-pole circuits, sales-floor and show-window power
- Restaurant / QSR build-outs: services and panelboards, kitchen-equipment and hood connections, walk-ins, drive-thru and menu-board site conduit
- Tenant improvements: demo and make-safe, branch circuits, lighting and controls, data rough-in
- Services, panels, feeders, disconnects and RTU / equipment connections
- Lighting retrofits, exterior wall packs and pole heads, emergency and exit lighting, occupancy and contactor / time-clock controls
- Owner-furnished EMS and building-automation installs: circuits, CT / meter wiring, BACnet / Modbus trunks, commissioning support

HOW WE WORK WITH GCs

- Full plan-notes review before any counting or pricing
- Drawing, spec and responsibility-schedule conflicts sent back as written RFIs
- Material priced from current supplier quotes
- Two-page proposals: firm base bid, alternates, exclusions and clarifications line by line
- Single point of contact from bid through closeout
